(sample of submitted file)

Submitted file was the PatentIn ".prj" file.  
Please do not submit the ".prj" file: it is a  
"work-in-progress" file. Submit the generated  
Sequence Listing file. Please go to "Application Steps"  
on main menu, after opening the ".prj" file. Click  
on "Generate Sequence Listing." Click "Start" button.  
PatentIn will validate each sequence, and will indicate  
any error (format error). Once you see "successful completion",  
go to "Project" on main menu scroll down to  
"View/Print Sequence Listing." You'll see your  
generated Sequence Listing. You can then save  
file to a floppy disk. The completed file  
will have an ".ST25" file extension.

Please contact Mark Spencer at 571-272-2510 for assistance.
